## Expanding Our Collaboration with Evolent for Oncology Services Effective Date Changed to January 1, 2027

**Summary:** AmeriHealth Caritas Next/First Choice Next previously communicated that Evolent would begin administering the Oncology Quality Management (OQM) Program on December 1, 2026. The implementation date has been revised and will now take effect on January 1, 2027.

At AmeriHealth Caritas Next/First Choice Next, we're committed to supporting providers in delivering high-quality care to our members. As part of that commitment, we are expanding our collaboration with Evolent to administer our Oncology Quality Management (OQM) Program.

**Effective January 1, 2027**, prior authorization through Evolent will be required for certain radiation oncology services and oncology-related infused medications, supportive agents, and symptom management drugs provided in provider offices, ambulatory centers, outpatient hospital settings, and inpatient hospital settings (CAR T-cell therapy only) for eligible AmeriHealth Caritas Next/First Choice Next members of all ages.

### New Tools and Support Available Through Evolent

The OQM program is designed to support evidence-based treatment planning while providing streamlined authorization options. Key features include:

- Real-time authorization decisions for eligible treatment plans submitted through the CarePro Provider Portal [evolent.com/provider-portal](https://evolent.com/provider-portal).
- Telephone submission support for treatment plans when needed by calling **1-888-999-7713**.
- Access to board-certified medical and radiation oncologists for peer-to-peer clinical discussions.

Treatment plans will be reviewed using nationally recognized, evidence-based clinical guidelines.
